Lithium Batteries in Universal Avionics Products

The Lithium batteries used in the Universal Avionics products listed below **are not** required to meet the standards set forth in TSO-C142a (Non-Rechargeable Lithium Cells and Batteries) or DO-227 (Minimum Operational Performance Standards for Lithium Batteries). In all of the listed products, the battery is not rechargeable, not field replaceable, not used to power the equipment, and contains less than 1.0 grams of lithium.
